Programming Languages	:	Core Java
Test Management Tool	:	QC 10.0

Project Expertise:

Project#1

Project Name	: Prana
Role	: Software Test Engineer
Testing approach	: Automation & Manual
Duration	: Oct 2017 to till Date

Description:

Prana is a versatile, stylish, and sustainable clothing and accessories that you can wear during every activity, every adventure, every day. Because we base our designs on our own experiences. You see we're more than makers, we're doers—yogis, climbers, and world travelers—and we use our knowledge to make adventurous, free-spirited clothes that look good and play hard.

Roles & Responsibilities:

- Understanding the Requirements and Functional Specifications of the Application.
- Wrote test case automation scripts in java using Selenium WebDriver, TestNG.
- Wrote Selenium script for taking screenshot and used Selenium Actions class to handle mouse movements and hover-over actions on Web Elements.
- Used firebug to identify object's ids, Name, XPath, links in the application.
- Performed Regression testing on new builds and every modification in the application using Selenium.
- Set up Selenium tools from scratch and configured various other peripherals tools to perform Selenium test.
- Participated in enhancement meetings focused on making the product more effective in real time scenario.
- Played a major part in testing and timely delivery of the product.
- Participated in Daily Scrum meeting, Stand-up meeting, walkthrough meeting, weekly assessment meetings with business analysts and developers.
- Involved in Sanity Testing, Smoke Testing, Retesting and Regression testing.
- Interacting with Client daily and explain the progress of the project.

Project#2

Project Name : GalleryOne
Role : Test Engineer
Testing Approach : Manual
Duration : June 2016 to September 2017

Description:

GalleryOne is America's Largest Art Source established in 1974. Representing more than a thousand nationally known artists and art publishers, Gallery One offers an unequalled selection of the artwork collectors and interior designers. Gallery One's warehouses and corporate offices are located in Mentor, Ohio. More than 30,000 limited-edition prints, original painting sculptures, books, collector plates, posters and porcelain figurines are on display and in our immaculate warehouses.

Roles & Responsibilities:

- Understanding the Client Requirements and functionality of the system.
- Preparation and Execution of test cases as per requirement.
- Involved in Smoke testing, Functional testing, Regression testing and Retesting.
- Involved in daily status calls and weekly review meetings.
- Reporting bugs in QC 10.0.
- Retesting the cases where defect has been raised.
- Interacting with Client daily and explain the progress of the project on Daily basis.
